Artist Statement

Bernadette Sefic is a non-binary actor, producer, and Graffiti artist located in Denver, Colorado. They believe in bringing art to the people instead of people to the art. They believe that collaboration and community based work reaches the farthest, engages the hardest, and lingers the longest. They believe all good art is intersectional - in mediums, in creators, and in audience. They believe the best art is always ephemeral, which is why theatre and graffiti are the best.
